

National Curriculum

As Writers, we will be writing stories based on Stone Age Boy and we will be reading Stig of the Dump. We will be writing instructions about how to wash a stone-age animal and writing an informative newspaper report based on Skara Brae. We'll also be writing a Rock Rap.

As Mathematicians, we will be using our multiplication facts to answer real life problems, we will be working with fractions and investigating measurement of length, volume and capacity. Please use TT Rockstars it is a fabulous resource which encourages them to learn their tables fluently.

As Scientists, we will be finding out and investigating rocks and soils and testing their suitability for different purposes. We will investigate fossils and learn about Mary Anning. However, we will start off the term investigating Light and shadows. Let's hope the sun comes out!

Spring Term 2026

Homework and Website

The website will be updated regularly with photos and work with opportunities to extend your child's learning experiences.

There is a copy of the term's spellings and details of the homework projects that the children will need to complete during this topic.

This term's values are **Respect** (tolerance and thoughtfulness) and **Perseverance** (patience and self-discipline).

National Curriculum

As Geographers, we will be studying the geology of the Earth linking rocks and soils with the physical landscape.

As Historians, we will be diving into life in the Stone Age, asking questions and using evidence to build up a picture of what life was like and the changes that happened through the Bronze and Iron age periods.

As Artists, we will be creating masterpieces using natural resources, linking it to cave art and the media they used and making colour. We will also look at abstract art.

In RE, we will be learning from some of the Hindu beliefs and practises.

In DT, we will be investigating mechanisms, in particular pneumatic systems. We will be designing and making Might Machines out of some of Stig's junk.

In Computing will be using and writing a branching key and begin to write some programming.

As Musicians, we will start to learn the ukulele!

In PE, we will be having a go at some invasion games and learning about defending and attacking outside on a Wednesday. We will be inside on a Friday and are going to be creative with dance.

In French, we will be learning to name shapes and how to say what we can do (some verbs)!
