

# Homework Activities... Spring Term 2 2026

Choose one activity to complete each week. Put any evidence of the activity into your homework book and bring into school by Wednesday every week.

Please tick and date the activity you have completed, even if you have emailed your homework.

Be creative in your homework and have some fun.

Photos and digital work can be emailed to the homework email address:

[kempleyhomework@gorsleygoffs.hereford.sch.uk](mailto:kempleyhomework@gorsleygoffs.hereford.sch.uk)

Keep practising your reading, spellings and counting in 2s, 3s, 5s, and 10s a few times every week.

Don't forget, you can practise your spellings using EdShed (log in details are in your reading record).

**Design** - Design a menu for Mr. Grinling's lunch. What foods will you include? Can you make some healthy choices? Don't worry, the seagulls won't be stealing this one!

**Instructions** - Create a detailed, step-by-step guide for making an unusual sandwich. Your creation can be wonderfully delicious or hilariously disgusting—the choice is yours! After writing your instructions, follow them to make the sandwich. Finally, once you have taste-tested your creation, give your sandwich a star rating.

Have you got an idea of your own? If you do, you can put it in your homework book too!

**Top Trumps** - There are many creatures living in our oceans. Some of these creatures are endangered. Endangered means that it is likely to become extinct. Extinct means it no longer exists like the dinosaurs. Can you find out some endangered animals that live in the ocean? You can use this link to help you.

<https://www.natgeokids.com/uk/category/discover/animals/sea-life/>

**Investigate** - Find out about the different layers in the ocean and how the sea life has adapted to live in the different layers.

**Make** - Create a new lighthouse for Mr. Grinling. Think about the features it will need to have.

**Create** - Make your own sea life creature that could live in the midnight zone of the ocean. What special features will it have to have adapted?

**Save the Ocean Pledge** -

Write your own personal promise to help protect and care for the ocean. Begin with: "I promise to help the ocean by..." and complete the sentence with your own ideas. You may also decorate your pledge with waves, sea creatures, or any ocean-themed drawings to make it creative and eye-catching.

Create some top trump cards using some of the creatures you have found. You could find the following information, conservation status (from least concern to critically endangered), height or length, weight and life expectancy. Remember to use a title for each creature and category.
